Description

AS TOUGH AS EVER

CornPro Trailers has a 35-year history of manufacturing tough, built-to-last trailers. Built right in Elnora, Indiana, CornPro base models are built to higher construction standards than most elite competitor models. Why? Because no matter what you're hauling, we want your CornPro Trailer to be the most reliable and durable trailer you'll ever own. Make it your own and build a trailer customized for your payload.

The company name CornPro comes from the Cornelius family that originated the brand. The objective, then as now, was to produce professional-grade trailers - thus, the name CornPro was born. The company has grown from building agricultural equipment to a complete line of trailers, that includes livestock, horse, flatbed, and utility trailers.

BUILT TO HAUL, BUILT FOR YOU

AXLES: Quality DexterRegistered axles are standard on all CornPro Trailers. We use only Dexter axles and replacement parts are readily available - from brake parts to replacement components and everything in between. Each trailer carries the axle manufacturer's factory warranty along with our overall trailer warranty.

TIRES: Tires are where our quality touches the road. Quality radial tires are standard with every trailer. Each trailer carries the tire manufacturer's factory warranty along with our overall trailer warranty.
